

Master of Engineering Management

The competitive Master of Engineering Management program bridges the gap between technology and business by providing students with the technical expertise and leadership skills needed to advance their careers. The 30-unit Master of Engineering Management is available for full-time or part-time students.

This program brings together Washington University faculty and industry-leading experts to help students learn to strategize, lead, make informed decisions, manage financials, and leverage both existing and emerging technology. The courses prepare individuals to utilize common management tactics across all of the engineering disciplines.

- **Full-time Master's Degree:** 30 units, 1-1.5 years to complete
- **Part-time Master's Degree:** 30 units, 2.5 years+ to complete
