Non-BSBA Programs

Pursuing a Second Major or Minor in Olin as a Non-BSBA Candidate

Students in other undergraduate divisions of Washington University may choose to complete a second major or a minor in a business discipline. This opportunity allows students to combine their academic interests between two schools. If students wish to pursue a second major or minor in business, they are required to follow the degree requirements for their primary school/major along with a set of core business or prerequisite requirements and 15 units of professional major/minor coursework.
