Data Analytics Certificate

The **Certificate in Data Analytics** focuses on data preparation, data analysis, applied statistics, and data visualization. Students in the program learn to communicate, problem solve, and lead around data practices, making them competitive in the St. Louis region.

This certificate program is designed primarily for individuals wishing to transition to a data analytics career, including people who have little to no background in data or students who have some background in data but want to enhance or learn data-related skills. Upon completion of the certificate, students will be competitive for entry-level data analytics and data analysis careers.

Students are able to complete this certificate online. However, course availability may vary depending on the semester.
