Project Management Certificate

The **Certificate in Project Management** emphasizes the essential skills needed to successfully research, plan, develop, and complete a project in an organizational context. Students in the program learn key project management fundamentals, how to identify and effectively manage risk, the role of data in project planning and implementation, and communication skills for leaders.

Students are able to complete this certificate online. However, course availability may vary depending on the semester.

This program is not explicitly designed as PMP exam preparation. Please consult the WashU CAPS PMP Course-to-Skill Map to see how courses in this program align with key competencies assessed in the PMP certification exam.
